Over the last year, **more than 1,000 underserved public school students** participated in our arts and learning programs. In 2008, we brought **ROOM 13**, an international network of student-driven creative studios, to America. Since that time, each of our studios is filled to capacity with students who are making art, sharing ideas, making decisions, and growing a micro-business around the arts. **We are proud to announce the launch of ROOM 13 at John Muir High School.**

The **L.A. FUTURES ACADEMY** is a two-year career pathways program that provides a real-world application to college-bound, career-ready initiatives in public schools. Addressing the needs of young people at a critical age, the Academy is helping to cultivate tomorrow's talent pool and providing the life skills, know-how, and mentorship necessary for young people to advance toward creative fields.

**EXPRESSING FEELINGS THROUGH ART (EFTA)**, a prevention program delivered in partnership with Mental Health America, engages hundreds of high school students throughout L.A. County. A public exhibition will be held in May at Art Center College of Design, and scholarships will be awarded to acknowledge outstanding student participants.

### Light Bringer Project Builds Community Through the Power of Arts and Education

**We believe our value to these young people is significant and we need your help. Thank you for supporting us!**
